MEMORANDUM FOR: Director of Personnel

FROM:

[redacted]  
Director, Foreign Broadcast Information Service

25X1

SUBJECT:

Appeal of PMCD Classification of FBIS Positions [redacted]

25X1

REFERENCE:

Report of Position Management Survey of FBIS Engineering  
and Staff Positions, dtd 30 December 1981 [redacted]

25X1

1. In general the grade determinations in subject position management report will go a good part of the way towards assisting FBIS in meeting current and future operational and planning goals. We were understandably disappointed that a number of our requests for regrading were not approved, specifically those requested for the Deputy Chief, Okinawa Bureau and for the four regional engineers. For economy of effort we have decided not to appeal these positions at this time; we will ask to have them reclassified at a later date, when the regional engineering concept is more fully in place. [redacted]

25X1

2. We do, however, appeal the grade calls on the three positions listed in the attachment. We believe that the survey report incorrectly assesses the full scope and complexity of the duties involved in these jobs or overlooks the essentiality of proper grading in support of FBIS' complex, new developmental activities. [redacted]

25X1

3. Your favorable review of these three position regradings is requested. [redacted]
